

Press Release

Scheer GmbH to provide Partner Managed Cloud for SAP® Software

Saarbrücken, Germany – April 03, 2020

Scheer GmbH announced today that they will extend their long-term partnership with SAP® by providing a partner managed cloud for SAP® software solutions.

Scheer GmbH offers an affordable, ready-to-use, subscription-based offering of SAP solutions in its private hosted cloud, enabling customers to access SAP software quickly and easily without the need for up-front infrastructure costs associated with on-premise software deployments.

"Customers will rapidly benefit from Scheer's unique reference process model, including our industry and solution best practices combined with SAPs preconfigured content within one cloud delivery model," said Sascha Reindorf, Head of Sales HCM Scheer GmbH. "Through our partner managed cloud, we will enable customers to avoid any lack of knowledge due to todays speed of new processes and functionalities with new product releases. This will allow customers to focus on their business rather than their IT needs."

As a provider of a partner managed cloud, Scheer GmbH will provide customers with a cost-effective, on-demand, cloud-based delivery model of their SAP software solutions. Scheer GmbH will supplement these services with best practice ARIS integration, implementation, management and support services.

As an SAP gold partner, Scheer GmbH offers qualified support in selecting, implementing and operating SAP products.

About Scheer GmbH

Scheer GmbH is the flagship company of the Scheer Group, which operates in various European countries as well as in the U.S.A., Singapore and Australia.

As a consulting and software house with proven process expertise, Scheer GmbH supports companies in the development of new business models, with the optimization and implementation of efficient business processes as well as with the dependable operation of their IT systems. The integrated architecture comprises various consulting solutions and products: it offers dependable solutions for the end-to-end digitization of business models and processes as well as for the implementation of new technologies in digital business. Scheer is the partner of choice for many well-known companies working towards the useful and efficient implementation of SAP and SAP S/4 HANA. Furthermore, consulting in the context of the current development of business process management and process mining supports the quality of innovative business model processes.

Customers benefit from high levels of Scheer sector expertise, gained from diverse consulting projects, professional IT implementation and the possibility of having their applications or the entire IT-architecture run and managed in the cloud by Scheer experts.
